

FLORENCE KY SHOW 2005

All of the upbeat stuff was just smokin' and the boys in the band were crankin'! Bobby surprised us fans and brought back our beloved "Hurt" which in the unanimous opinion of our little "Fab 5" group is the song that shows off Bobby's talent the most...and if you took a survey of all the "Waxers"...there would only be one number even close and that would be the most memorable and what should be the signature song of the entire show... at least to us fans and that is "The American Trilogy". It is just awesome and raises goose bumps every time it is played...and the crowd reacted immediately after hearing the guitar strum 4 or 5 familiar notes. The song received the biggest and loudest standing ovation of the season! Now when you also get to hear "Statue of a Fool" and the usual great patriotic part of the show...then I submit to you... that is about as good as it can get! I talked to both Mayor Whalen and Vanessa Leneer after the show and both were very impressed and said they received nothing but flattering comments from everyone including the people who watched it live on cable TV. By the way...Vanessa loved the Herb Alpert portion of the show. One last thanks to Mayor Whalen and Vanessa Leneer for bringing this great show to Florence! Bobby and all of the boys in the band said it was a first class venue and they could not have been treated any nicer! I would also like to thank all of my "Waxer" comrades for showing up in force. The Black shirt Brigade and the Purple Platoon were very impressive...never seen so many Hot Wax shirts at a show. Let's see them again as we roll into Falmouth! By the way, I have a real good feel for Falmouth and we may see the largest crowd at a show in some time ...just a gut feeling! All of my tracking polls are indicating that...get there early...LOL! I must be OFF! Rock on!
